Dear Jim,

The only thing I belong to is the Society of Professional Journalists. I ignored a number of invitations to join and finally did.

The last issue of their publication had a story on FOIA that is corrected in several ways and pointed out that instad od those they credited who did not a damned thing they ignored you on what led to the 1974 amending and the first fee waived, granted me. Inv. files amending, that is.

I also pointed out at the Reporter's Committee on the Act actually spoke out against the fee waiver to me.

If they use what I wrote as a letter to the editor/maybe you'll get some paying clients!

Let me know which of your books I have and if you want them before you are up here again I'll mail them. I know that the Old Boys of the OSS is one.

Best,

Harold
